Summary

Dynamic React.js Developer with a proven track record of crafting seamless and responsive user interfaces. Proficient in all React elements and components, building modular and reusable code for scalable applications. Experienced in implementing Redux for robust state management. Adept at API integrations, enhancing functionality and enabling efficient data retrieval. Collaborative team player skilled in translating Figma designs into interactive React components. Deep understanding of front-end principles, including responsive design and cross-browser compatibility. Committed to continuous learning and staying abreast of emerging React.js trends.

Work Experience

React JS Developer - Tech Curve AI & Innovations [Trainee]   **Apr 2023 – Dec 2023**
- Proficient in utilizing all React elements and components for building dynamic and interactive user interfaces.
- Experienced in implementing Redux for effective state management, ensuring scalability and maintainability.
- Skilled in seamlessly integrating APIs into React applications, facilitating efficient data retrieval and manipulation.
- Collaborative use of Figma for translating design concepts into React components, ensuring alignment with UI/UX requirements.
- Deep understanding of front-end development principles, including responsive design, cross-browser compatibility, and accessibility.

Front-End Developer - Tech Curve AI & Innovations [Internship]   **Dec 2022 – Apr 2023**
- Experience in using markup languages like HTML to create user-friendly web pages, creating responsive and adaptive web designs.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Designed and Assessed UX and UI designs conversion into HTML pages.
- Collaborated with product team members to implement new feature developments and modifications.

Consultant - Excelra Knowledge Solutions PVT LTD [Freelance]   **June 2021 – Present**
- Working as a research analyst as a freelancer, I have experience of research analysis, and have involved in research projects whenever projects are there.

Database Administrator & UX designer   **June 2018 – June 2021**
Daffodils high school & Siddhartha PG College
- Worked as data entry operator DTP and typist in English, Hindi and Telugu made educational papers, books. Development of computerized educational materials through Photoshop, designed visually appealing

graphs and charts using Photoshop for school/college presentation projects.

Software Skills

- Hyper Text Markup Language (HTML)
- Cascading Style Sheets (CSS)
- React JS
- JavaScript (JS)
- JavaScript (JS) Libraries (e.g., React JS)
- CSS and JS Frameworks (e.g., Bootstrap)
- Figma - UI/UX design
- Testing: Manual Testing
- Databases: SQL Server
- Tools: MS Office
- Operating Systems: Windows 10, Linux

Education

Bachelor of Technology in Civil Engineering. Percentage 66.54   **2017**

Balaji Institute of Technology and Science (BITS), Warangal

Intermediate, MPC. Percentage 91.9   **2013**

Triveni Junior College, Warangal

Class X (SSC). Percentage 85.16   **2011**

ZPPSS Girl's High School, Warangal

Strengths & Responsibilities

- Understanding and analyzing Software Requirements.
- Designing with web pages in Figma.
- Web development is done by building reusable codes for future use.
- Involvement in User Interface design using HTML, CSS, JavaScript.
- Writing code for User interface functionality and part of Admin interface functionality.
- React Js development, Code structure , components making, redux usage, APi integrations
- Team-player, ability to lead people, adaptive, hardworking, and self-starter.

I hereby declare that the above information is true to the best of my knowledge.

(K. Renuka)
